About the Release Preview Notes

The Release Preview Notes are a comprehensive user guide for the latest release of DataStation. DataStation Release Preview Notes gives you glimpse of the new features and enhancements in the latest release.

What's Included in the Release Preview notes

For every new major enhancement, the Release Preview Notes provide:

- Listing of all performed and planned changes

Your Feedback Matters

We know how important the Release Notes, online help, and documentation are to your company's success with DataStation.

To continually improve the content we deliver to you, we want to know what works and what doesn't. Let us know!

- Support email—Use the email of your DataStation Account Manager (support@datastation.com) to submit your suggestions, corrections, and feedback about the documentation. Let us know what you think!
- Your ideas—We're listening to your ideas too.

Want to be notified whenever we publish new updates, user tips and hints?

Browser Support

DataStation supports the following browsers:

Browser	Comments
Windows® Internet Explorer® versions 6, 7, 8, and 9	DataStation.com strongly recommends using Internet Explorer version 9 over versions 6, 7, and 8. Apply all Microsoft® hotfixes. Internet Explorer 6 is not supported for certain features, or they might have degraded functionality. The compatibility view feature in Internet Explorer 8 and 9 is not supported in DataStation.
Mozilla® Firefox®, versions 3 and above, most recent stable version	DataStation.com recommends using Firefox for best performance and makes every effort to test and support the most recent version.
Google® Chrome™, most recent stable version	Google Chrome applies updates automatically. DataStation.com makes every effort to test and support the most recent version. There are no configuration recommendations for Chrome.
Apple® Safari® version 5.1.x	Supported on Windows XP and Mac OS X version 10.4 and later. There are no configuration recommendations for Safari.

Some third-party Web browser plug-ins and extensions can interfere with the functionality of DataStation. If you experience malfunctions or inconsistent behavior with DataStation, disable all of the Web browser's plug-ins and extensions and try again.
